## EXPERIENCE

Business Development Specialist - Freelancer

2020 - Present

My journey in Business Development began with providing clients with best Excel solution by improving templates and optimizing automation strategies. A year later I have decided to extend my services by providing a complete ERP Solutions for small companies. it took me around 7 months in order learn how to build an ERP systems using ODOO open-source and deploys it on AWS cloud services, which opens me a new customer segments.
